

## MECHANICAL TOOLS HP4

Professional manual mechanical tool with ratchet mechanism that prevents the handles from opening again before reaching the ratchet.

Equipped with a positioning device to reduce the operator's effort and facilitate proper crimping of the conductor.

According to the different thicknesses of the conductor insulation, the crimping on the insulation can be carried out by adjusting the jaws through three different settings:

- > 1) strong
- > 2) medium
- > 3) light

The tool is particularly easy to use thanks to its shape and handle coating.

At the end of the crimping the outer surface of the conductor is automatically stamped with the following crimping code:

- > one point for red conductor sizes from 0.25 to 1.5 mm<sup>2</sup>
- > two points for blue conductor sizes from 1.5 to 2.5 mm<sup>2</sup>
- > three points for yellow conductor from 4 to 6 mm<sup>2</sup>

# MECHANICAL TOOLS HP4

## *Technical characteristics*

Material (Body)

Special steel

Material (Moulded)

Soft PVC
