

HYDRAULIC PRESSHEADS RHC131

Crimping force 130kN

Hydraulic presshead complete with quick automatic coupler for connection to a hydraulic pump with a max operating pressure of 700 bar.

This new design with improved mechanical features, is suitable for installing the same range of connectors as HT131-C, B135-C and B131-C.

This model accept all semicircular slotted dies, common to Cembre 130 kN tools.

MAIN APPLICATIONS - max. section mm ²				
L.V. lugs and splices	Insulated terminals	"C" sleeve Connectors	H.V. lugs	H.V. Splices
400	240	185	400	400 limited to the cable insulation diameter

Purchase separately the sturdy plastic case type **VAL P26**, suitable for storage of the head and 14 sets of dies. *Dies not included, sold separately.*

INSULATED VERSION: Range of applications and accessories for compression are the same of the [uninsulated version](#).
