B54-D6

rechargeable crimping tool

next generation

powerful battery tooling from Cembre

The professional tool for OH lines and service connections.

B54-D6 rechargeable crimping tool

- Can be operated with one hand.
- Balanced for greater control.
- Jaws rotate 180° for ease of operation in confined spaces.
- The tool is fitted with a maximum pressure valve.
- Automatic return of jaws after completion of the crimp.
- Automatic return can be stopped at any time to ease positioning.
- Extremely quiet, minimal vibration.
- Durable moulded body offering high resistance to wear and damage in all operating conditions.
- Ni-MH battery; powerful, better environmental compatibility.
- Supplied in a robust plastic case for storing the tool and all accessories.
- Two batteries and charger included.
- Standard interchangeable crimping jaw: **CDD6** with "D3" groove to accept all "W" style crimping dies + "BG" fixed groove.
- Battery condition displayed after every crimping operation to show the residual battery power.

CDD6 jaws

With "D3" groove to accept all "W" style crimping dies + "BG" fixed groove.

CDD6-8 jaws

With "D3" groove to accept all "W" style crimping dies + "O" fixed groove.

CMB1 jaws
