

HYDRAULIC CUTTING TOOL HT-TC065

general features

Hand operated hydraulic tool specifically designed to cut copper, aluminium and telecommunications cables having a max overall diameter of 65 mm. The tool features a double speed action. The blades are manufactured from high strength special steel, heat treated to ensure a long service life. The head can be easily opened to allow the cutting of running cables. The head can rotate through 320 degrees, to enable the operator to work in the most comfortable position. HT-TC065 features an automatic safety valve to bypass oil when reach-reaching maximum pressure; a pressure release device can also be operated at any stage of operation.
