

SUPPORT TROLLEY CS-SD

The support mechanism, which secures the portable drilling machines SD-9P-ECO, SD-10E and the portable impact wrench NR-11P, incorporates a gas pressure spring to give a constant, balanced control to the machine during operation.

Fitted with insulated wheels, the trolley does not interfere with the track electrical circuits.

The trolley is easily closed and can comfortably be carried by a single operator.

The CS-SD standard version is suitable to work on standard gauge rails (1.435 mm),

The trolley is easily assembled and can comfortably be carried by a single operator.
