

CEMBRE

T-TYPE 36V CORDLESS IMPACT WRENCH
LIGHTWEIGHT & ERGONOMIC

NEW

CEMBRE / ONE MORE BATTERY

CEMBRE offers a complete range of machines for the **maintenance of railway lines**.

The range includes:

LD-16B-RP
Rail drilling
machine
rainproof

TW-18B
Torque
wrench
rainproof

NR-25B
Impact
wrench
rainproof

BBLW36
Light impact wrench

B70M-P36R, B85M-P36R
Portable
electro-hydraulic
pump rainproof

SD-36B
Sleeper
drilling machine rainproof

All equipped with the same rechargeable battery system, they offer a huge advantage for the user. All designed to be used in wet conditions, intense humidity, and in the dark.

T-TYPE / LIGHT IMPACT WRENCH

CEMBRE
T•TYPE

CEMBRE has expanded its range of **portable battery-powered equipment for railway applications** with the introduction of **BBLW36**, the new **light impact wrench** for track maintenance.

The result of careful design and continuous innovation, the BBLW36 is a **powerful yet practical and easy-to-handle tool**, able to deliver effective power in an incredibly slim and lightweight structure, designed to reduce user fatigue and space requirements, improving the working experience of railway operators.

SOCKET		
	TYPE	BATTERY CHARGER
	 PLUG EU	BBLW36 ASC55-EU
	 PLUG UK	BBLW36E ASC55-UK
 PLUG USA	BBLW36A	ASC55-USA/CA

TECHNICAL SPECIFICATIONS	
max. developed torque	2000 Nm
power supply (brushless motor)	36 V ---
dimensions (LxWxH)	460 x 152 x 880 mm 18.1 x 5.98 x 34.6 in.
weight with battery	8,4 kg (18.5 lbs)
SALES CONFIGURATION	
screwdriver	BBLW36
36 V - 8.0 Ah Li-Ion battery	CB3680L
battery charger	✓

ACCESSORIES UPON REQUEST

SQUARE SOCKETS

TYPE	DIMENSION mm
WL19x19	19 x 19 long
W21X21	21 x 21 (20 UNI)
W24X24	24 x 24 (22 UNI)
W26X26	26 x 26

RECTANGULAR SOCKETS

TYPE	DIMENSION mm
W21X28	21 x 28 (24 UNI)
WR21X28	21 x 28 (24 UNI) with reduced external diameter

FLARED SOCKETS

TYPE	DIMENSION mm
W21X28S	21 x 28
WR21X28S	21 x 28 with reduced external diameter

HEXAGONAL SOCKETS

TYPE	DIMENSION mm
W32	32
W36	36
W46	46
WL38	38 long
WL39	39 long
WL41	41 long
WL44	44 long

FASTENING CLIPS

TYPE	
CLIP-NR	for sockets with collar from 47 to 57 mm
CLIP-NR57	for sockets with collar from 57 to 67 mm

T-TYPE / LIGHT IMPACT WRENCH

ERGONOMIC DESIGN

The special angle of the handle allows the operator to adopt a correct position, thereby withstanding vibrations better and preventing pain caused by continuous stress, especially in the event of intensive use.

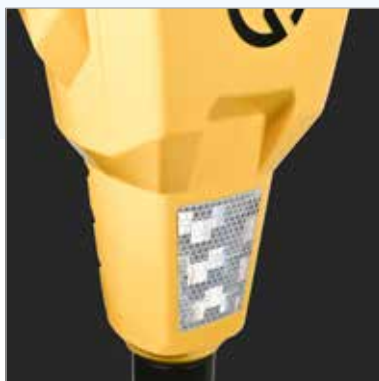

BATTERY PROTECTED FROM VIBRATIONS

The recessed position protects the battery from dust, knocks and external agents. The housing is equipped with a shock-absorbing spring system which protects the electrical contacts from constant vibrations.

HIGH VISIBILITY

Reflective inserts make the BBLW36 more visible at night.

OPERATING POWER

With an operating power of up to 2000 Nm of torque, the BBLW36 is designed to apply and remove screws and bolts with 1-inch drive sockets. The brushless motor provides advantages in terms of greater energy efficiency and lower maintenance.

METAL PROTECTION

The support points on the motor housing are protected by metal plates against knocks, ensuring a long life and easy transport.

36V BATTERY

Operating at lower currents than other 18V batteries, this 36V battery ensures less risk of the tool overheating, thereby extending working times.

SLIM BATTERY FRAME BUILT INTO THE FRAME

The compact design of the BBLW36 rechargeable battery makes the tool easy to handle and comfortable to use and carry. Integrated into the frame, it minimises bulk and brings the body of the tool closer to the operator's hands for more precise and natural control.

DISPLAY

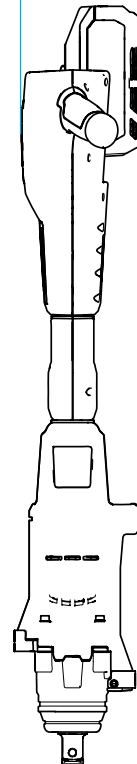

The front display shows the battery charge status in real time, ensuring that the operator always knows the remaining power even during use.

The Auto-Stop function automatically switches off the tool when the clamping device is fully extracted.

SAFETY - YELLOW

The BBLW36 is yellow, the color used in the railway sector for the machines, which makes the operator more visible and ensures greater safety while working on the tracks.
